- 10) After completion of works as per the approved plan, mortgage area will be released before grant of occupancy certificate by the HMDA as per rule 26 of G.O. Ms No. 168 MA dt. 07.04.2012.
- 11) The building plans are valid for a period of FIVE (5) YEARS from the date of issue of permission letter as per latest amendment of Building rules 2012 vide G.O.Ms.No.62, dt.21-03-2020.
- 12) With regard to water supply, drainage and sewerage disposal system to be provided / facilitated to the proposed building the Municipal Commissioner shall ensure the following.

- i. The location of water supply source & sewerage disposal source are located at appropriate distance within the site preferably at 100 feet distance so as to avoid contamination.
- ii. The depth of the bore and sizes shall be limited to the minimum depth and size of existing nearby bore-well. Water shall be disinfected by adding hypo-solution to maintain 0.3 to 0.4 p.m of residual chlorine in the sump / overhead tanks.
- iii. Where main Municipality drains exist in vicinity of site, insist on connecting the treated sewerage to main existing drain by laying a sewer pipe of diameter ranging from 200mm. to 300mm.
- iv. In case where such Municipality drain exist, insist on connecting the treated sewerage overflow to a natural drain or nala with a sewer pipe of diameter 150mm.
- v. Before allowing the overflow mentioned in (iii) & (iv) above ensure the sewerage of the proposed building is invariably 1st into a common septic tank constructed on as per ISI standard specification (ISI) Code No.2470 of 1985 (Annexure - I) and constructed with a fixed contact bed, duly covered and ventilated for primary treatment. The Municipal Commissioner shall ensure that no effluent / drainage over flows on the road or public place.
- vi. To prevent chokage of sewers / drains, the last inspection chamber within the site / premises shall be provided with safety pads / gates.
- vii. The party should clean that septic tank periodically by themselves, and cart way the sludge, etc., to an unobjectionable place.
- viii. All the above shall be supervised and inspected by the Municipal Commissioner concerned for compliance during the construction stage.
- ix. Since eventually the public sewerage and water supply systems are expected to be systematically added / extended by the Hyderabad Metropolitan Water Supply & Sewerage Board to the outlaying areas of Hyderabad, the proposed building owners shall pay proportionate pro-rata charges to Hyderabad Metropolitan Water Supply & Sewerage board for the above facilities as and when demanded by the Hyderabad Water Supply & Sewerage Board.

- 13) The Municipal Commissioner should ensure that the applicant undertakes to abide by the conditions, which may be imposed, in terms of G.O.Ms.No.168 MA, dt.07-04-2012.
- 14) The Municipal Commissioner should ensure that the proposed building / complex is constructed strictly as per the approved building plans and mandatory inspection shall be made at foundation stage, plinth level and first floor and subsequent floor level as required under G.O.Ms.No.168 MA, dt.07-04-2012 deviation, misuse or violations of minimum setbacks, common parking floor / stilt marking / violation and other balcony projections shall not be allowed.
- 15) The Municipal Commissioner shall ensure that all fire safety Requirements are complied in accordance with the National Building Code, 2005.
- 16) The Municipal Commissioner shall allow the proposed building complex to be occupied used or otherwise let out etc., only after;
 - (i) The proposed building is completed in accordance with the technically approved building plans;
 - (ii) After ensuring all the above conditions at (a) to (i) are complied.
 - (iii) After ensuring the conditions with regard to water supply and sewerage disposal system as mentioned in (d) above are complied to the satisfaction of the Municipal Commissioner.
 - (iv) After issuing a "Fit for Occupancy" certificate by the HMDA as required as required under Government order No.168 MA, dt.07-04-2012.

- 17) The Municipal Commissioner shall ensure that the developer display a board at a prominent place at the site which shall show the plan and specify the conditions mentioned in this office letter, so as to facilitate public in the matter.
- 18) That the applicant is responsible for structural safety and the safety requirement in accordance with the National Building Code of 2005.
- 19) The applicant shall develop Rain Water harvesting structures in the site under reference as per plan enclosed.
- 20) That the applicant should erect temporary scheme to avoid spilling of materials outside the plot during construction to stop environmental pollution to ensure safety and security of the pedestrians and neighbours.
- 21) That the applicant shall made provisions for erection of Transformer and Garbage house with in the premises.
- 22) That the applicant / builder / constructor / developer shall not keep their construction materials / debris on public road.
- 23) That the applicant should ensure to submit a compliance report to HMDA soon after completion of first floor roof level and then all the roofs are laid so as to enable to permit him to proceed further by inspection of site by
- 24) It is also hereby ordered that the copy of approved plan as released by HMDA and local authority would be displayed at the construction site for public view.
- 25) That the construction should be made strictly in accordance with this sanctioned plan. If any modifications are necessary prior approval should be obtained.
- 26) That the applicant shall obtain clearance from T.S. Fire Services Dept. for the proposed complex under the provisions of T.S. Fire Services Act 1994 before coming for Occupancy Certificate.
